Professional Experience

Summer Housing Assistant

Summer 2025 - Summer 2026

University of Delaware, Residence Life & Housing, Newark, DE

- Coordinated office operations and front-desk activities, resolving resident service requests promptly.
- Supported event logistics through room assignments, maintenance coordination, and housing-related events.
- Collaborated with housing managers and student staff to improve operational communication and efficiency.
- Used Excel and Google Workspace for data tracking, audits, and service performance metrics.

Intern: Business Development

June 2023 - August 2023

Khawaja Securities (Financial Advising and Wealth Management), Islamabad, Pakistan

- Performed fundamental and technical analysis of commodities, equities, and currencies on the Mercantile Exchange.
- Researched market trends and investment opportunities to support informed client recommendations.
- Collaborated with business development, marketing, and finance teams on strategies engaging 20+ potential investors.

Projects

Student Habits vs. Academic Performance | Power BI

Spring 2026

- Cleaned and modeled 1,000 student records across 16 variables using Power Query and Power BI.
- Built DAX measures and KPIs that identified academic performance drivers and translated findings into targeted intervention insights.

Airport Security & Passenger Flow Optimization | Simulation

Spring 2026

- Built Monte Carlo, agent-based, and discrete event simulation models to assess bottlenecks, passenger behavior, and operational risk.
- Analyzed 10,000 scenarios; identified scanner capacity as the key bottleneck and reduced modeled shortfall probability from 43.4% to 7.3% by adding a Regular lane.

COVID-19 Economic Impact Analysis | SAS Analytics Project

Fall 2025

- Used PROC SQL, DATA steps, and SAS macros to produce cross-country GDP, HDI, case, death, and mortality indicators for economic and public-health risk assessment.

Data Mapping for Fintech Integrations | Hackathon Project | University of Delaware

Fall 2025

- Validated data and translated compliance requirements into mappings between FDX APIs and Fiserv DNA.
- Delivered a decision-ready business case and integration solution with technical teammates.

Netflix Content Analytics Dashboard | Tableau

Fall 2025

- Built an interactive Tableau dashboard with calculated fields, parameters, filters, and KPI tracking to analyze content trends.
- Surfaced content-mix and trend insights and translated them into content strategy recommendations through data storytelling.

Nvidia PESTLE Analysis | Carol A. Ammon Annual Case Competition

Spring 2025

- Evaluated trade restrictions, technology trends, and antitrust risks; presented decision-support insights on business risks and opportunities.

Research Project: Risk Perception and Brand Equity | Riphah International University

Spring 2024

- Used SMARTPLS and SPSS to analyze risk perception and brand equity.
- Recommended strategies to strengthen customer trust, loyalty, and competitive brand positioning.

Leadership and Community Involvement

Event Coordinator, BAIM Graduate Student Association | GSA

Spring 2026

- Organized and led the From Data to Decision: Analytics & Storytelling workshop with the University of Delaware Research Data & Design Commons.
- Coordinated stakeholders, registration, and logistics; guided participants through data exploration, visualization, and insight generation.

Director of Finance & Interim President | Riphah Green Club, Islamabad, Pakistan

May 2022 - May 2024

- Managed budgets, logistics, and cross-functional partnerships to deliver sustainability projects.
- Partnered with faculty and local organizations to coordinate project activities and resources.
